WHY CALIFORNIA WILL SUPPORT M'KIN-LEY.

A TALK WITH M. H. DE YOUNG-HIS REASONS

FOR FAVORING SILVER. Michael H. De Young, formerly vice-chairman of the Republican National Committee, and editor of The San Francisco Chronicle," was in town yesterfey on his way to Washington, where he will a few days before starting for Europe. Mr. Young is a representative silver Republican, and was in line for the Vice-Presidential nominaand war of the golden kite." He is an enthusiast subject of California, and an uncompromison the subject of the was in St. Louis during the convention, and is pleased with the ticket which was placed in nomination, Mr. Young says there is no doubt as to the election of McKinley and Hobert. In spenking of the attitude of the california people on the silver question, he said called the bolt of some sliver advocates should not be looked upon as showing disaffection on the part of the good people of the West, nor as an indicaand that McKinley will not receive the support of ican silver men, "California instructed its blerates to St. Louis," he said, "to vote for silver, out they were also instructed for McKinley. To those who do not know the situation, this looks paradexical. But the explanation is this: We have the choice between the Democratic party's slogan, Free trade and free silver,' and the Republican party's platform-'Gold and Protection.' We had to choose between these two. If we were in the majority, our platform would be 'Free silver and but as we are in the minority in our party, and do not believe in the rule or ruin policy, propose to remain where we belong, as Republicens; and, leaving our party patriotism out of the question, having choice between silver and prowe deem protection paramount,

"California's greatest woulth lies in the products of her soil, livestock and wool, and we want protection. We must have it, in order to resume once more the position of proud presperity which we occupied for many years. In my opinion, the whole country is languishing for protection. Not only the producers from the soil, but our manufacturers and our merchants all understand that a return to Republican rule, to the Republican party's able methods of financiering, means a positive and definite return of good times, increased business and ample work for all those who are at present unem-

Mr. De Young was asked why California, which is the greatest of all gold-producing States, favored the free coinage of silver?

There seems to be a universal error in this part of the country on the silver question," he said. "The great majority of people suppose that the advocates of silver are confined to the silver mine-owners in the silver-producing States. California's position in this question is the same as that of the States which neither produce silver nor have silver miner, such States as Ohio, Llinois, Indiana, Kentucky, Georgia Virginia. Now, the reason why these States and California advocate silver is because they are fully convinced that there is not enough gold in the world for the basis of the transaction of its business. The natural result of this deficiency is that gold is constantly appreciating in value. This fact is clearly demonstrated by the yearly increase in its pur-chasing power. We all know full well, also, that the natural products of the country are depreclating. Not many years ago one could get a gold dollar for seven pounds of cotton; to-lay we give sixteen many years ago one could get a goin to a second on points of cotton; to-lay we give sixteen nds for a yealow dallar. We have to give twice much wheat as ever before for a gold dollar, and same ratio follows through the whole long list of natural products. That is one reason why the during states ask for two metals for colonge and the basis for the business transaction. You people the following the products of the product and stilling evidences of in New York have treated as a same times of the year ships leave your port carrying away millions of gold in hoxes and barrels, and at other times the same gold repacked comer back to New York to cover the indelitedness of foreign correspondents. This plainly demonstrates that there is not gold enough in the world to transact business, and it must be accessfully be moved from one commercial centre to another as the trade requires it.

"Right here I want to answer one of the staple."

enother as the trade requires it.

"Right here I want to answer one of the staple arguments of the gold man. We are told that if this country adopts free collage of silver it will become the dumping ground for the world's silver. I have a ways maintained that there is no silver in the world outside of the United States to dump, and that there is no fanger to be expected from that source. There are frequent occasions when any one may see that the United States is the only market for silver. Less than two weeks ago the French Government bought in this market 1.25,000 ounces of silver, and is now in the market for another 1,000.00. The London market has an order for silver from China with which that country proposes to pay part of the war indemnity, and the London agents are in this market to buy the silver. The result has been that silver has gone up and silver certificates are at pure. We silver much are in favor of McKhirdy and silver, and we feel confident that we will win our battle in Congress and that it is not necessary to ose the blessings of protection to do so."

## THE NEW-YORK DEMOCRATS.

THANKS FOR HALF A LOAF. From The Brooklyn Eagle.

The Eagle' thinks that the platform of the convention, which was properly limited to National matters, was not the best which could have been adopted, but that it is one upon which all Democrats in this State should be able to unite. It is admirably calculated to secure the support of every Democrat in New-York. It is also toned and pointed in such a way as should arrest the respectful attention and command the considerate study of Democrats throughout the entire Union.

#### ON RECORD FOR SILVER. From The Philadelpnia Press.

From The Philadelpnia Press.

Having made this concession to silver men by his statements suited to the latitude of Chicago, the Saratoga platform emphasizes the support of the "present gold standard" and declares the support of the "present gold standard" and declares the support of the Tree-silver coinage to be new doctrine, but the construction of the Democratic party. As an overwhelming majority of the Democratic vote in both chambers of Congress has been voting for the divergence coinage at every opportunity for eighteen that it is rather late in the day to declare the codifine non-Democratic.

THEN THEY WILL SEE THEIR ERROR. From The Utica Press.

It is a tremendous undertaking on the part of mose who hope to make the currency plank adopted at Saratoga the expression of the Democratic National Convention Right, they say, can prevail against might, but the danger to Democrats is that the victory will be delayed till November.

A CONFESSION OF DEFEAT.

The Pittsburg Commercial Gazette. If anything were wanting to demonstrate that the sound-money men of the Democracy realize fully that the National Convention will be controlled by the sliverites, it is supplied in the money pronouncement of the New-York Democrats in the platform a adopted at their State Convention yesterday. Dedaring against free coinase, it is yet trimmed with sive branches and is in reality a moving appeal for almost any kind of straddle or postponement of the bage.

UNFITTED FOR HIS ROLE.

From The Buffalo Express. The New-York Democrats have trouble enough of their own. The distinguished Cleveland men who had been slated for alternates-at-large refueld to accept harmony at so cheap a price. They prefer to take their chances as district delegates. David B. Hill seems to be a failure as the Great Pacificator. His own kind of people are ansay because they usuly believe that he has been courting the enemy. The enemy does not take Mr. Hill seriously in the tale of a sound-money man. How can they, in view of his speeches in Congress and on the stump?

#### PLATT AS SEEN IN THE WEST. The San Francisco Argonaut.

From The San Francisco Argonaut.

Boss Platt, of New-York, has been manoeuvring in St. Louis to get some slight prestige out of the recent contest, in which he most distinctly was not in it." He has been posing as having forced the fold plank" upon the McKinley men. This is folly. The complexion of the committee was largely Western, and the passage of the financial plank was not due to Mr. Platt. He has been so homilisted by Mark Hanna that he has been clutching at any straw in order to save his reputation as a politician. His claim of passing this gold plank is one fistance. His attempt to nominate Morion for the Vice-Presidency is another. But a man who brings by candidate before a convention claiming the presidency and then accepts the Vice-Presidency, is certainly not a successful leader of men. He is reminiscent of the Southern politician in Jackson's time, who went in Washington demanding the office of Secretary of State, and finally was mollined by the President giving him an old pair of boots.

### OBITUARY.

LYMAN TRUMBULL

Chicago, June 25.-Lyman Trumbull died at his home, No. 4,168 Lake-ave., at 3 o'clock this morning. He had been iil a long time, but railied at inter-vals, causing the hope that he might eventually recover. His last relapse, however, settled his fate in the minds of his physicians, and the end has been expected daily for the last week.

Lyman Trumbull was born in Colchester, Conn., October 12, 1813. He came of families that have long been prominent in New-England. His father was a son of the Rev. Dr. Benjamin Trumbull, a graduate of Yale and eminent in statesmanship as well as jurisprudence and theology. His mother was Elizabeth Mather, a descendant of the Mathers famous in the early history of Massachusetts. Young Trumbuil was educated at Bacon Academy. He taught village school when he was sixteen years

## SUNDAY-SCHOOL CONVENTION.

REORGANIZATION OF THE FIELD WORKERS -FINANCIAL REPORTS.

Boston, June 25.-Another bright morning brought the delegates out in good force for the third day's | to-morrow proceedings of the International Sunday-school Association's convention. Mr. Moody spoke on "The Holy Spirit, the Teacher Who Would Teach People

All Things if They Would Only Let Him." L. H. Bigelow, of New-York, the treasurer, pre-sented his report, showing receipts for the last three years of \$21,969.79 and expenses of \$21,961.38. leaving a balance in hand of \$10841. The Finance Committee reported that the amount pledged at the last convention, held in St. Louis, for the expenses of the work was \$19,535. For various reasons was a serious falling off in the receipts, but by special meetings in several large cities the amount was made up, with something to spare. The call of the States and Territories showed the subscriptions for the next three years to amount to \$35,000. John

Wanamaker personally subscribed \$1,000.

This evening in Trement Temple, the speakers were the Rev. Dr. A. Schauffler, of New-York; the Rev. A. J. Disz, of Cuba, and the Rev. John W. Butler, of the City of Mexico. Dr. Schauffler spoke

on "The Study of the Bible in Spots."

J. M. Green, of Atlants, first vice-president of the Executive Committee, introduced Asa C. Canler, of the fall of the same year, 1837, he returned West Atlanta, who presented to the convention an official invitation from the Mayor and General Councli for the convention to meet in Atlanta in 1899.

The invitation was accepted by acclamation.

Dr. Diaz was warmly greeted, and he spoke of Sunday-school work in Cuba. He also touched on the war in Cuba, saying that it was not conducted in a humane manner on the Spanish side. He hoped that Cuba would soon gain its freedom. If the United States would extend to Cuba its recognition of her beligerent rights the war would soon end, and the island would have liberty and peace.

Mr. Butler was the last speaker. Referring to the fact that Mr. Diaz was an exile, he said that the time was coming when he would be able to re-turn to his native land as an evangelical preacher. and have over and about him all the protection neessury, either from free Cuba or her stater republic. In Lorimer Hall W. A. Eudaly, of Chicago, presided, and the speakers were the Rev. H. C. Wood-ruff, of New-York, on "The Foreign Sunday-School Association," and the Rev. Charles S. Albert, of Pennsylvania, on "Sunday-School Work Among

Foreigners in Our Own Country. The latter, in the course of his remarks, said:

"The Catholic people who grow up in our country and breathe in our National spirit are as good citizens as are the average Americans. Parochial schools are not opposed to our public schools, as many of us think. They believe the State should provide for education of its people, but the separation of Church and State, which I fully believe in in this country, leaves little provision for religious instruction outside the churches. For this reason they open their schools, first, to give their children religious instruction, and secondly to teach them the mather-tongue of their parents. When dorsed with full name and address. they have cast in their lot with its they are enthusiactic Americana. The Sunday-School is well re-

Ratavia, N. Y., June 25.- In the presence of hundreds of friends who thronged the spacious Epls-copal church to the doors, Miss Cornella Chandler, a daughter of the late Rear-Admiral Chandler, of a daughter of the lafe Reaf-Admiral chandler, of the United States Navy, was married at noon to-day to 8 Duna Greene, of Schene tady, one of the managers of the General Electric Company in that City. The Rev. A. M. Sherman officiated, assisted by Dr. Lubeck, of New York. Forty years ago the bride's father and mather were married in the same church. Many people from New-York, Albany, Os-wego and Schenectady were present.

## NEW STEAMSHIP LINE TO JAPAN.

San Francisco, June 25 - There is every probability that within the next few months a new steamship line will be in operation between this port and Yo konama. The principal object of the new company is to secure cheaper frieght rates on goods exported from Japan. In time a combination freight and passenger service will be put in operation. The cheap labor employed by the foreign corporation would probably place it in a position to make a large reduction in freights.

RECORDS NOT TO BE LENT. THE REGENTS DENY A REQUEST OF THE WAR

DEPARTMENT.

Albany, June 25.-Several months ago a request for a loan of the Revolutionary muster rolls of New-York State to the War Department of the National Government was made tarough Governor Morton to the State Board of Regents. It became known today that the Regents at their meeting yesterday re-fused to lend the rolls. The request was made by Lieutenant-Colonel Ainsworth, who has charge of collecting Revolutionary data for the National Government, and was referred to the Regents because they are custodians of the State Revolutionary

records.

The resolution providing for the lending of the rolls The resolution providing for the lending of the rolls was unanimously voted down by the Regents on the ground that it would establish a bad precedent and colleges and other States would follow with requests for similar valuable data. The Regents agreed to give Colonel Ainsworth access to these musier rolls if he would send a corps of persons to Albany to copy them. Colonel Ainsworth has written that this is impossible, as he has no available appropriation to do the work in this manner.

Unless the Regents recede from their position the National history of Revolutionary records, which is being compiled in Washington, will be printed without the muster rolls of New-York State. The twelve other original States have already lent their records to the War Department, and the copy is said to be nearly ready to go to the printer.

THE GOVERNOR'S BRIEF VISIT.

Governor Morton was in town a few hours yes terday. He came from Ellersite at 10 o'clock, and after a brief visit with Chauncey M. Depew at his office in the Grand Central Station, the Governor went to his office, No. 28 Nassau-st., where he remained until about 3 o'clock. Then he went to the Grand Central Station and took a train back to his home on the Hudson. Governor Morton said to a Tribune reporter that he came to New-York to see some friends who were going to Europe. The Governor looked well and spoke willingly, ex-cept on the subject of politics, which he declared to touch.
